

WHAT IS CLAIMED IS:

1. A scoop for use on non-horizontal work surfaces, which comprises:

(a.) a first base panel and a second base panel, each of said first

and second base panels having a front, a back and two sides,

5 said first base panel and said second base panel being

connected to one another along a side of each to establish a

seam wherein a first angle measured perpendicular to said

seam and formed by said first and second panels, is about 120

degrees to about 170 degrees;

10 (b.) a first wall panel and a second wall panel, said first wall

panel being connected to said first base panel on a side

opposite said seam and at a second angle of about 120

degrees to about 170 degrees, said second wall panel being

connected to said second base panel on a side opposite said

15 seam and at a third angle of about 120 degrees to about 170

degrees; and

(c.) a back panel, said back panel being connected to the backs of

said first and second base panels.

20 2. The scoop of claim 1 wherein said first base panel and said second

base panel are rectangular with lengths that are greater than their

widths, said lengths running along said seam.

3. The scoop of claim 1 wherein said scoop further includes:

(d.) a handle located on at least one of said back panel, said first wall panel and said second wall panel.

5

4. The scoop of claim 1 wherein said first angle is between about 150 degrees and 170 degrees.

5. The scoop of claim 1 wherein said second angle and said third angle are each about 120 degrees to about 150 degrees.

10

6. The scoop of claim 1 wherein said first angle is about 150 degrees and 170 degrees and said second angle and said third angle are each about 120 degrees to about 150 degrees.

15

7. The scoop of claim 6 wherein said first angle is about 150 degrees and 170 degrees and said second angle and said third angle are each about 120 degrees to about 150 degrees.

20

8. The scoop of claim 3 wherein said handle is located on said back panel.

9. The scoop of claim 3 wherein said handle is located on at least one of said first wall panel and said second wall panel.

5

10. The scoop of claim 1 wherein said first base panel, said second base panel, said first wall panel and said second wall panel are all formed from a single integrated piece.

11. The scoop of claim 1 wherein said scoop is a metal scoop.

12. The scoop of claim 1 wherein said scoop is a plastic scoop.

10

13. The scoop of claim 1 wherein said first wall panel and said second wall panel are each connected to said back panel

15

14. The scoop of claim 1 wherein said first base panel, said second base panel, said first wall panel, said second wall panel and said back are made of a single piece of material.

20

15. The scoop of claim 14 wherein said single piece of material is a metal material.

16. The scoop of claim 14 wherein said single piece of material is a plastic material..

17. The scoop of claim 3 wherein said handle is located on an outside surface of said back panel.

5

18. The scoop of claim 15 wherein said scoop includes a handle that is located on an outside surface of said back panel.

19. The scoop of claim 16 wherein said scoop includes a handle that is located on an outside surface of said back panel.

10

20. The scoop of claim 15 wherein said scoop is made of aluminum.

15
